

7/21/2020
All Employees

Today has brought good news to all of us at Sheyenne Care Center. The results are back from our Friday, July 17th testing and we are back on track thanks to all of you who have been practicing safe COVID precautions. We tested 162 residents which all came back 100% negative. We tested on Friday 204 employees who also came back 100% negative. Great Job! Everyone.

Our next test date for residents and employees is scheduled for July 24th, 2020.

Thank you all for keeping our residents and staff at Sheyenne Care Center safe and for practicing smart COVID precautions.
Craig Christianson
