

1/23/2020

Dear Families and Friends

Another week of testing occurred on 10/20/2020 and I pleased to announce that we had 100% negative test results. This is especially rewarding to all of our residents and staff here at Sheyenne Care Center. We are trying our best to keep this virus out of our facility and staff is to be commended for their efforts at staying safe during this spike in COVID across North Dakota.

Our next round of testing is scheduled for 10/26/2020 and we all pray that we continue to be safe in what we do and follow the universal precautions within Sheyenne Care Center and when out in the community. Wearing a mask, washing and sanitizing hands and social distance is a key part of staying safe.

These are trying times for everyone and we all need to continue doing our part to be safe. If you have a chance I strongly encourage being tested. I say that because asymptomatic individuals do not realize that they are infected with the virus which leads to others being infected.

Thank you!

Craig Christianson, CEO
