

11/7/2020

Dear families and friends.

I want to inform you that on Monday of this week we had a resident come back from a clinic visit who we feel came in contact with the COVID virus. This has created an outbreak with other residents on 2nd floor of Sheyenne Care Center. The staff is working hard with residents comforting them as we adjust to this outbreak. All resident first contacts have been notified if their loved one has tested positive. We have moved all residents into isolation and we are continuing to monitor them throughout the day. We will stay in touch with residents' families who's loved one have been tested positive.

We will continue to post information on our Facebook page and our webpage on the progress at Sheyenne Care Center.

Thank you for your prayers and support.

Craig Christianson, CEO
